24: Deadline to submit proposals to the N+1 Institute Reverse Pitch Competition is **Tuesday, February 25**. Despite tremendous advancements in technology, many regions of the world still lack access to advanced medical facilities and skilled physicians. The rise of IoT (Internet of Things) and global connectivity offers a promising solution by enabling the remote collection, access, and management of clinical data. However, to realize this vision, practical challenges such as security, connection reliability, equipment deployment, ease of use and overall cost to deliver must be addressed. While providing care to underserved regions and people, the vast volume of clinical data presents an incredible opportunity for additional research to improve healthcare for all. Your pitch should propose a novel and innovative solution to bridge these gaps and join our mission to deliver healthcare without boundaries. [Click here to learn more and submit a proposal.](#)

MARCH

1: Deadline to submit Student Engagement Grants is **Saturday, March 1**. Each year the Lakeshore Nature Preserve awards several Student Engagement Grants of up to \$1000 each to facilitate the use of the Preserve as a resource for education among UW undergraduates. Any student, faculty, or staff member at the UW–Madison may apply. Groups of individuals may submit a proposal as a team. Every individual or team must have at least one faculty or staff member, who is expected to play an active role in overseeing the project. [Click here to learn more and apply.](#)

+ ICYMI: From *The Badger Herald*: "In celebration of Black History Month at the University of Wisconsin, the [UW Black Cultural Center](#) invited Los Angeles-based actress Marissa Bode to speak on intersectionality at Memorial Union on Wednesday, Feb. 5." [Click here for the full story.](#)

+ ICYMI: From *NPR*: "In the U.S., bird flu headlines have focused on an [unprecedented number of American cases](#) and the impact of the virus on [dairy cows](#) and on [poultry farms](#). But wildlife researchers like Uhart say the dramatic scene in Argentina is evidence that something new — and ominous — is going on with the virus that causes bird flu. And that ignoring it puts human health in peril." [Click here for the full story.](#)
