Genetics
UNIVERSITY OF WISCONSIN—MADISON

NEW GENETICS IN A MODERN WORLD CERTIFICATE: The Laboratory of Genetics will now offer a new certificate to students this fall. Whether you're interested in data science, biology, or global health, this program is designed to share the tools and knowledge to make an impact from the #1 genetics undergraduate program in the country. Talk to your advisor or [visit their website here](#) to learn more.

Enroll in Fall 2025 Course: Epidemiology and Global One Health, **POP HLTH 810:** 2 Credits; (October 20 – December 10; last 7 weeks of the semester); Monday and Wednesday: 1:20-3pm; WARF room 726 (Observatory and Walnut). This course examines the intersection of human, animal, and environmental health within the context of the Anthropocene—the era in which human activity is the dominant influence on climate and the environment. Drawing on the One Health framework, we will explore how globalization, ecological change, and human activity contribute to health disparities, the emergence of infectious diseases, and shifts in global public health priorities. Email the instructor, **Dr. Johnny Uelmen** (uelmen@wisc.edu) to learn more!

SEPTEMBER

22: The deadline to submit your work to the 2025 Global Oncology Symposium is **Monday, September 22**. All accepted abstracts will be presented as posters. The Top 5 abstracts will be selected for oral presentations. The Top 3 presenters will receive 1st, 2nd, and 3rd Place Trainee Best Oral Presentation Awards. [Click here to learn more and apply.](#)

FOOD FOR THOUGHT ▼

+ Students: UHS Mental Health Services is excited to introduce Thrive Online, a new online resource designed to support student mental health and wellbeing. An extension of their Thrive Workshops, Thrive Online is an evidence-based resource hub designed to help students manage common college mental health challenges. It offers practical tools, strategies, and worksheets across three current modules: Test Anxiety, Procrastination, and Stress Management, with more topics planned in the future. [Click here to learn more.](#)

more than advancing research and education in computing, data, and information — it's forging powerful partnerships that are transforming how work is done across campus and throughout Wisconsin. [Click here to learn more.](#)

+ ICYMI: Badger football kicks off a new season that includes big-time matchups with Big Ten rivals Michigan, Ohio State and Minnesota. But for all the competition on the field, a new TV ad released by the Big Ten Conference reminds the viewing public that some things are bigger than sports — including the collective and collaborative impact of these schools within their communities and throughout the country. [Click here to learn more.](#)

If you'd like to receive our weekly newsletter, [please use this link.](#)

The Global Health Institute sends Tuesday updates to let you know about GHI and campus events and opportunities that foster deeper understanding of the complex determinants of health and disease for people, animals and ecosystems. *To submit global health related events or reading suggestions in GHI's Events+, send them to communications@ghi.wisc.edu by noon on Fridays.*
